

WARNING:

The mesh eye and face protector does not protect against liquid splashes, including molten metal, hot solids, electrical hazards, infrared and ultra-violet radiation. Any mesh/ocular visor marked S should not be used when there is a foreseeable risk of any hard or sharp flying particles.

LIMITATION:

Do not modify or change the model. Refer to application for specific use of the model for hazard protection. Other unspecified hazards are not recommended with the model.

REQUIREMENT: Mesh eye and face protector complies with the Regulation EU 2016/425 and the European Standard NF EN 1731: 2007 "Personal eye protection. Mesh eye and face protectors".

PERFORMANCE: Personal eye protection. Mesh eye and face protectors in accordance with NF EN 1731:2007 EU type Examination.

APPLICATION: When the protector is worn properly and is given adequate care, it provides excellent protection by preventing harmful particles such as dust, grass, flying objects that comes from crafting, cutting, motor saws etc.

MARK:

INGS The appropriate marking can be found on or under the headgear, visor or wire mesh of each model.

Protection Against High Speed Particles Symbols For Lens and Frame:

F Low Energy Impact: 45 m/s]
B Medium Energy Impact 120 m/s
A High Energy Impact: 190 m/s

Note: If the F, B and A symbols are not the same for the mesh, visor and the headgear, then the lowest level should be assigned to the complete mesh eye and face protection.

CLEANING AND DISINFECTION:

Mesh eye and face protector must be cleaned or disinfected only with solution very low in alcohol on the headgear. For mesh or visor, apply soft brush or air spray to remove any particles before transport or storage.

MAINTAINANCE: Like all other protective items, the life span depends on the type of application, care and maintenance. If the mesh, visor, headgear is damaged, replace the entire article. We recommend that all models are kept in dry and clean condition when not in use. In every case, the product must be replaced after a period of five years.

REPLACEMENT:

VISOR - Only use Jefferson approved replacement visors that are suitable for this equipment. Contact Jefferson Tools for information about replacement parts.

TRANSPORT & STORAGE:

The protector must be transported in the original packing. Store between 5 to 55°C ; humidity less than 90% < 70%.
