

170,000 BTU INFERNO INDIRECT OIL HEATER

JEFHTIND170

- Voltage: 230V
- Fuel type: Diesel/Kerosene
- Fuel tank capacity: 80 Litres
- Clean hot air
- Flue gas exhaust
- Heat exchanger
- Overheat thermostat
- Thermally protected motor
- Oil pump filter and external suction filter with transparent glass cup
- Diagnostic LED
- Post-ventilation
- Electronic flame control with photocell
- Stainless steel combustion chamber
- Oil tank with level indicator
- Built in trolley system for easy maneuverability which makes it perfect for transporting across numerous sites
- Fuel pump with access for easy maintenance
- Thermal Power: 41.7kW
- Max. Fuel Consumption: 4L/hr
- Endurance: 20 hours
- Heating Capacity: 240m²
- Power: 300W
- Dimensions: 1215 x 685 x 860mm
- Weight: 65kg

IDEAL FOR USE IN AREAS WITH LIMITED VENTILATION (WHEN USED WITH DUCTING)

- Event tents
- Exhibition halls
- Military and aerospace
- Rental companies
- Commercial buildings
