

215 AMP GAS/GASLESS MIG WELDER (230V)

JEFMIG215-AM

Our professional range of autoMIG welders all feature a heavy-duty high output transformer and forced air cooling to maximise duty cycle performance. Supplied set up in gas mode, but can be easily switched to gasless mode with a simple change of polarity. Use in gasless mode will require the purchase of a spool of fluxed cored wire, a pack of 1.0mm tips and a 1.0mm wire feed roller.
