

24" ROTOMOLD INDUSTRIAL DRUM FAN 110V / 230V

- The 24-inch Rotomold Industrial Drum Fan is designed to tackle industrial ventilation challenges with a robust build and versatile functionality
- Ideal for factories, warehouses, workshops, construction sites and other industrial settings
- Provides reliable and efficient performance for cooling, drying and general ventilation in industrial environments
- Large wheels and long power cable for increased maneuverability
- Three adjustable speed settings for tailored ventilation
- HDPE construction resists dust, debris and physical damage
- Withstands extreme conditions and heavy impacts ensuring reliable performance over extended periods of time
- Axial fan with 3M cable

OVERLAY DESIGN ALLOWING UNITS TO BE CONNECTED FOR INCREASED AIRFLOW
